

POSSIBLE NEXT STEPS FOR AGENDA ITEMS 5 AND 6

WIPO FOR OFFICIAL USE ONLY

- Amend agenda items on Limitations and Exceptions to “Copyright Issues Relating to Libraries and Archives” and “Copyright Issues Relating to Educational and Research Institutes and Persons with other Disabilities”
 - This will allow discussions on these topics to be kept on the agenda. It will allow L&Es to continue being addressed, but will broaden the scope to allow for a more holistic treatment of the topic e.g. to discuss role of licensing, contractual-based solutions, etc.
 - The discussions should be forward looking, and consider both analog and digital challenges and solutions.
- Under these two agenda items, a Work Programme will be put in place, as a follow on from the Action Plan.
- The Work Programme will include, amongst other things:
 - Capacity Building to be undertaken by the Secretariat (but has to be upon request by the Member State)
 - Legislative drafting at the national level, including an understanding of the broader policy context.
 - Domestic legislative implementation of WIPO Treaties
 - The relevant international federations may also work together with the Secretariat to provide assistance in the practical aspects of implementation.
 - Toolkits relating to
 - CMOs and CMO related work
 - L&E relating to preservation
 - Cross-border exchange of copyright works
- There will continue to be concurrent discussions on various int’l solutions, including soft, law, contractual licensing and normative approaches, as appropriate. It may be useful to have a document articulating elements of these solutions, perhaps in the form of Chair’s non-paper.
